100 YEARS IN THE MAKING

When Leo Wahl invented the first electric hair clipper in 1919, he didn't just revolutionise an industry. He created one.

What started as one man's brilliant, innovative idea in America's heartland is now the worldwide standard for barbers and hairdressers.

It has been a journey shared with our loyal customers as we celebrate our 100th year. When you pick up a Wahl product, you can be confident that 100 years of professional heritage is in the palm of your hand.

WORLD LEADERS

All Wahl products are designed with professional barbers and hairdressers in mind. We aim to provide powerful and durable products that are of the very best quality on the market. Our blades are precision ground and rust resistant to give professionals the ultimate cutting performance. Our extensive portfolio of clippers, trimmers and styling products has been created to offer each professional, regardless of experience or regularity of use, products that perfectly suit their needs.

The Wahl Cartridge Razor combines contemporary design with modern technology. Perfectly balanced with an interchangeable blade cartridge system ensuring the razor delivers the closest shave.

Part Number	ZX847-804
Retail SSP Ex VAT	£33.33
Barcode	5037127023099

SHAVE RAZOR 15CM

Similar to a traditional cut throat razor, the disposable blades provide precision edging every time, delivering long-lasting results. A 3 way lock system secures the blades tightly, producing less drag.

Part Number	ZX947
Retail SSP Ex VAT	£24.99
Barcode	5037127022283

BEARD OIL 50ML

Condition and nurture beards with Wahl repairing beard oil, which helps promote smooth and strong facial hair. A subtle blended scent for the discerning beard wearer.

Part Number	ZX940
Retail SSP Ex VAT	£14.99
Barcode	5037127022238

POCKET COMB 18CM

This folding comb is the perfect pocket-sized companion to keep your hair and beard tidy. The teeth have been saw cut and smoothed to protect your hair as they massage the scalp without removing any natural oils. Crafted in a shave razor design, the comb is always on hand to tame unruly hair as it can be clipped on to your keys or belt loop.

Part Number	ZY013
SSP Ex VAT	£8.99
Barcode	5037127024485

MOISTURISER 100ML

Easily absorbed, non-greasy moisturiser formulated to soothe and hydrate all skin types. Enriched with black mulberry and white nettles, this luxurious cream leaves skin feeling soft and smooth.

Part Number	ZX942
Retail SSP Ex VAT	£12.49
Barcode	5037127022252

HAIR TONIC 250ML

With an infusion of willow bark, white nettle and black mulberry, this classic tonic nourishes the hair and scalp while the special formulation helps to banish dandruff.

Part Number	ZX937
Retail SSP Ex VAT	£11.66
Barcode	5037127022207

BAY RUM 250ML

Splash-on aftershave lotion containing an exotic, spicy scent which leaves the skin feeling refreshed and invigorated.

Part Number	ZX938
Retail SSP Ex VAT	£13.33

STYLING

Wahl understands how important powerful dryers and styling tools are to barbers and hairdressers. We used this knowledge when developing this durable and reliable styling range.

POWERDRY HAIRDRYER

The Powerdry is a powerful 2000 watt hairdryer with a professional AC motor and a built in Tourmaline grille, designed to keep moisture in the hair cuticles for a sleeker and shinier finish. The Powerdry comes complete with two concentrator nozzles, one slim for direct heat and one wider for greater airflow. Featuring three heat settings, 2 speed settings and a cold shot together with the 3m long cable it is practical for use in a salon and at only 743g in weight it is comfortable to use. Limited edition colours available.

ZX751	5037127012390	£23.99
ZX720	5037127011348	£23.99

PENCIL HAIR STRAIGHTENER

The Wahl pencil hair straightener has thin 15mm plates and is designed for use with short hair. The tourmaline coated plates retain the hairs natural moisture, to leave the hair shiny and smooth, while being the ideal size to allow easy styling for short hair. The pencil straightener is perfect for tidying up fringes or fly away hair and with a top temperature of 200 °C within seconds, you can achieve ideal hair in minutes - whatever your style.

WAHL CLIPPER BLADES DESCRIPTION

Please find below a detailed description of various blade types and sets.

						
1006-400	KM1854-7505	KM1884-7040	2191	2105	2161-400	2228-400
<p>Cutting Depth 1-3.5mm</p> <p>This 2 hole screw on blade set is used on most professional clippers with a taper arm. It offers good all round barbering.</p> <p>However the pointed V shape teeth on the top blade are not good for zero overlap cutting.</p> <p>When this blade set is used on the cordless super taper it is secured with T20 Torx screws. Blades can be sharpened.</p>	<p>Adjustment of 0.7 - 3mm</p> <p>These blade are designed to clip on and have an adjuster lever built in giving an adjustment of 0.7 - 3mm.</p> <p>The top blade is stainless steel and the bottom is chrome plated.</p> <p>The KM1854 has the spring exposed, pressing on the cam follower allows the blade to open up to make cleaning easy. These blades are classed as disposable and cannot be sharpened.</p>	<p>The KM1884-7040 has the same functionality as the KM1854-7505 but with the added benefit of a more enclosed back. This prevents the hair from becoming clogged as regularly, reducing the amount of cleaning required making it more user friendly.</p> <p>The KM1884 has the spring covered, pressing on the cam follower on both types allows the blade to open up to make cleaning easy. These blades are classed as disposable and cannot be sharpened.</p>	<p>Cutting Depth 1-3.5mm</p> <p>The bottom blade of this blade set has a thinner edge than that used on the 1006-400 blade set and has a flat face.</p> <p>It is often zero gapped by Afro Barbers so it can cut as close as 0.6mm. The top blade is the V tooth 1052-450 plated blade so caution is advised when zero gapping. Blades can be sharpened.</p>	<p>Cutting Depth 0.4mm</p> <p>The bottom blade of this blade set has a thinner edge and finer teeth than the 1006-400 it also has a flat face.</p> <p>The top blade has a bow top so that it can be set to zero overlap, it is used on balding clippers (Balding clippers do not have a taper arm).</p>	<p>Stagger Tooth</p> <p>Adjustable 0.8-2.5mm cutting length.</p> <p>Blade angle: 13 degree</p> <p>Stainless steel and chrome plated</p> <p>Crunch Blade Technology.</p> <p>Staggered Teeth, ideal for tapering and fading.</p> <p>Designed for gradual skin fading.</p> <p>Rust resistant.</p> <p>Creates a blunter cut and even blending.</p> <p>Feeds hair faster and visibly improves blending for improved fading capability.</p>	<p>Wedge</p> <p>Adjustable 0.8-2.5mm cutting length.</p> <p>Blade angle: 12 degree</p> <p>Stainless steel and chrome plated.</p> <p>Top blade has a reduced rake and square teeth.</p> <p>Extended blade slide technology.</p> <p>Crunch Blade technology.</p> <p>Close fading for complete fading control.</p> <p>Rust resistant.</p> <p>Cleaner and smoother cut.</p> <p>Resulting in a better fade and blending range.</p> <p>Creates a blunter cut and even blending.</p>
The 1006-400 comes with: Pro Clip Super Taper Taper 2000 Academy Mains Clipper Cordless Super Taper Icon	The KM1854-7505 comes with: Chromstyle Beretto Bellina	The KM1884-7040 comes with: Academy Motion	The 2191 comes with: Magic Clip Corded Cordless Senior	The 2105 comes with: Balding Clipper	The 2161-400 comes with: Cordless Magic Clip	The 2228-400 comes with: Legend

Wahl Academy is open to barbers and hairdressers of all levels who want to develop their craft and push the boundaries.

Since 2002, our mission has been to inspire and educate every delegate that attends our courses. Through a balance of demonstrations and practical learning, every course provides a fantastic opportunity to learn from over 75 years of knowledge and experience from the Wahl Artistic Team members, ensuring you leave inspired and confident with cutting edge techniques.

At the end of the course you will receive a HABIA endorsed certificate. The HABIA endorsed certificate recognises your achievement in terms of Continual Professional Development (CPD) – vital for any salon professionals wanting to stay up to date with the latest techniques, and essential for educators in the delivery of NVQ's.

Solid Foundation: Classic Men's Grooming

Designed to build confidence in newly qualified barbers, it is also perfect for experienced hairdressers who want to expand their skills into barbering. Learn layering, graduation and clipper over comb.

Creative Advanced Gents

Ideal for updating basic skills and learning new techniques such as Simon Shaw's famous 'flick & smack' texturizing method.

Creative Advanced Ladies & Gents

Complete the latest modern cuts on both men and women. Learn to texture, blend and layer using your clippers. This course is designed to inspire and add a new talent to your portfolio that will really impress your colleagues and clients.

Specialist: The Fade

Teaches all aspects of this classic barbering technique from the basics you need to know to create the perfect fade with no visible lines to the more advanced techniques needed to achieve skin fades, shading and blending.

Specialist: The Shave

Learn the art of the traditional wet shave to add an element of sophistication and luxury to your salon by offering your clients a new experience setting you apart from the competition.

Specialist: The Artist

One of the few clipper design courses available in the UK, learn to create designs and then transfer on to hair and make it look sharp, with 3D effects and other creative techniques.

Wahl puts the 'edge in education' with a brand new college training programme. We will provide barbers, men's hairdressers and educators with the fundamental support and skills required to succeed in the industry, thus ensuring the standard of British barbering and men's hairdressing is second to none.

Men's Method is a unique college training programme that combines the rich history of men's hairdressing with contemporary salon techniques. This is a chance to raise the profile and success of your centre, receiving official Wahl recognition for your high-quality standards in training and education.

Only a limited number of Wahl Men's Method UK Training Academies will be approved each year, meeting a set of criteria to prove their cutting credentials. Once approved, Academies will be able to offer the education programme, making a statement to learners, peers and the industry.

Simon Shaw, Global Artistic Director of Wahl UK, said 'This is the most elite training academy programme for barbers and men's hairdressers in the UK, and we will only be accepting the very, very best. The Wahl name is prestigious, so we are careful about who we let use the name. But, if you think you've got what it takes to join this exclusive programme, get in touch so we can put you through your paces and see if you are Wahl Men's Method UK Training Academy material.'

Think your college has what it takes to become a Wahl Men's Method UK Training Academy? Do you have 'the edge' to deliver a forward thinking course? Head to: wahl.co.uk/mens-method for more.

COMMON CLIPPER PROBLEMS AND SOLUTIONS

PROBLEM: My clipper is making more noise than it used to.

MAINS ONLY

Solution: Clean and oil the blades, then adjust the voltage screw (located on the opposite side to the switch) turn this anti-clockwise until the noise subsides and returns to normal.

PROBLEM: My clipper keeps cutting out.

MAINS ONLY

Solution: Check the lead for any fractures, these can happen through general wear and tear. If there is a fracture then the lead can be replaced by contacting Wahl.

PROBLEM: My clipper is pulling the hair.

Solution: This happens when the blades are not aligned correctly. Directions on how to realign blades are in your instruction booklet.

This is also a sign that the blades may need replacing/sharpening. If the problem persists please visit our website, www.wahl.co.uk for information on blade sharpening.

PROBLEM: My clipper is nipping the skin.

Solution: This could be because the blades need to be realigned or it may be that the blade is damaged. If the clipper has been dropped the teeth in the blades could be broken and if this is the case the blade will need to be replaced.

PROBLEM: The snap on/off blade keeps falling off.

Solution: This is normally because of broken lug(s) on the blade chassis, the blade will need to be replaced.

How to Oil Your Blade:
